

Motion Capture Cameras

The image shows a person in a black motion capture suit and helmet, standing in a laboratory. The suit is covered in white reflective markers. The person is wearing a black helmet. To the right of the person is a white and blue UR10 cobot arm. The background is a black backdrop. The ceiling is made of metal trusses with several motion capture cameras mounted on them. The floor is a light-colored wooden table. The overall scene is a motion capture setup for human-robot interaction research.
